

# General Scott—The Next President.

We extract the following from a letter of Mr. Greeley, dated at Washington on the 3d of December and published in the Tribune:

"Who is to be the next President?" is already a question thoughtfully, anxiously pondered within the shadow of the Capitol. Washington is a city of politics, and men are here nothing if not political. As yet I hear only the names of Clay, Scott, Webster, and Fillmore discussed among Whigs; but Mr. Clay is unqualifiedly averse to being made a candidate, Mr. Fillmore is understood to be indifferent, or disinclined to attempt the chances of a canvass, leaving Gen. Scott and Mr. Webster the only practical competitors. Of these, Gen. Scott certainly seems to be the stronger here. I feel warranted in the assertion that if the whigs of Delaware, Maryland, North Carolina, Florida, Tennessee, Kentucky, and Louisiana—the only Slave States that can be reasonably expected to go Whig—are compelled to choose their candidate from these two, they would prefer Gen. Scott, and would go into his support with confidence of success. I say this as no partisan of any man likely to be run, but as a simple looker on, desirous of correctly reading and interpreting the signs of the times. It is not impossible that Mr. Clay, if he lives, will yet be made President in defiance of his own intentions, nor on the other hand, that an entirely new man may be selected. I speak only of what is now current in political circles here.

STATE BOARD OF AGRICULTURE.—At the late meeting of the Board at Columbus, among other matters, we find the following:

The report of Col. S. Medary, Treasurer of the State Board, makes the following exhibit:

Cash receipts	\$16,257 53
Cash expenditures	17,572 08

Leaving a cash deficit of 1,315 55

The outstanding debts due the Board, and assets, amount to \$6,344 47.

The following resolution was adopted:

Resolved, That the State Board of Agriculture be requested to petition the next General Assembly for the establishment of a Bureau of Statistics and Agriculture, under the direction of the State Board of Agriculture. Also, to petition Congress for the establishment of a similar Bureau in connection with the General Government.

Resolutions were also adopted relative to the interests of those engaged in Agricultural pursuits; and also requesting the State Board of Agriculture to inquire into the cause of a want of uniformity in the charges for transportation, even on the same lines of transportation.

Also, making it the duty of the State Board, the State Agricultural Convention and County Societies to act in concert, in guarding the interests of the farming community, and of seeking redress for whatever injuriously affects them, and of securing their rights by all proper means.

A resolution was also passed soliciting the Legislature to print and forward copies of the Report of the State Board of Agriculture to each paying member of the county societies.

WHAT KOSUTH MEANS BY HIS ACTIVE NON-INTERVENTION DOCTRINE.—The New York Times and the Herald, both contain the following paragraph, apparently giving an authoritative explanation of the nature of the 'intervention' which Kosuth expects of the U. S. Government:

"Kosuth simply asks that England and America shall unite in affirming the policy that every nation shall have the right to make and alter its political institutions to suit its own condition and convenience," and that the two nations, (England and America,) shall not only respect, but cause to be respected; this doctrine, so as to prevent Russia from again marching her armies into Hungary. It is true that the actual power of our country must stand behind its diplomacy in this as in other affairs; but by assuming this position, he holds that there would be no danger of our being involved in war. Let it be once understood that England and America agree in maintaining this doctrine, and Russia would certainly respect it. There is a wide difference between a resolute attitude, powerful enough to prevent interference, and the going to war to repulse an intervention already commenced. Gov. Kosuth has not intended to suggest that America should copy the example of France during our revolution, according to the letter, but according to the spirit. The circumstances are widely different, and all that can be hoped is that a great and free country like this should act in behalf of freedom according to the time and the circumstances in which it is placed."

He that hath a trade hath an estate; and he that hath a calling hath a place of profit and honor. A plowman on his knees is higher than a gentleman on his legs.

Rather go to bed supperless than rise in debt.

LATER FROM TEXAS.—We learn from the San Antonio Ledger that Col. Rodgers, Indian agent, Lt. Walker, and John S. McClellan, late from the treaty ground, arrived in that city on the 10th ult. The Ledger learns from the Indian agent that the treaty was closed on the 4th inst., satisfactorily to the Indians and honorably to our Government. The Camanches, Lipans, and Muscogees are the tribes with whom Col. Rodgers effected the treaty. It is stated that the Indians were in almost a starving condition when they congregated at the treaty ground. Col. Rodgers recovered from the Indians 27 prisoners, 25 boys and 2 women. The volunteer company commanded by Capt. H. McCulloch was mustered out of service at Fort Martin Scott, on the 5th inst.—N. O. Pic.

BURNS AND SCALDS.—No better remedy can be found anywhere, for Burns and Scalds, the pain of which it immediately relieves, and restores the parts and disposes them to heal. Old Sores and Ulcers will be removed by the daily application and administration of the Petroleum.

WOMEN.—In doses of fifteen or twenty drops, administered to children of two or three years old or upwards, two or three times daily, it will remove worms. It is a certain remedy against Tape Worm and Ascarides in grown persons, in which case, this dose must be a teaspoonful. Bronchitis and Asthma can be relieved by the Petroleum. The distressing Cough, Night Sweats and difficulty of breathing, are removed by its use in a very short time.

MARRIED.—In this place, on the 15th inst., by the Rev. C. B. McCloy, Mr. Z. M. CHEWING to Miss ELIZABETH C. FARBER; all of the Old Dominion.

STRAYED.—From the enclosure opposite the Woolen Factory, in this town, some time in September last, two large thrifty HEIFERS, two years old next spring. One is a deep red—the other is a line-back, and rather raw-boned. Any person leaving information at the Journal Office of the whereabouts of the above stock will be liberally rewarded.

Dec. 18, 1851.

ATTENTION.—The first of January is approaching, and all those knowing themselves indebted to me are earnestly requested to call and settle up.

Dec. 18, '51. F. MATHERS.

## INSURANCE. BY THE PROTECTION INSURANCE CO. Of Hartford, Conn.

INCORPORATED 1825.

CAPITAL STOCK, ANNUAL PREMIUMS & WESTERN FUND,

\$1,000,000.

THE Merchants and Household of Gallipolis and Gallia county are respectfully referred to the Superior advantages offered for FIRE and MARINE Insurance by LEWIS NEWSOM, Esq., the duly authorized Agent of this Company.

By the Establishment, 25 years since of a Central Office at Cincinnati, for the prompt settlement of Western and South Western Losses, a careful selection of risks, the most unremitting attention to their dispersion, and prudence and economy in all its transactions, the Officers of this Company have had the satisfaction of seeing its usefulness and prosperity constantly upon the increase during a long period of years. MANY OTHER COMPANIES HAVE IN THE MEANTIME FAILED TO DISCHARGE THEIR JUST LIABILITIES, HAVING BEEN WEAKENED AND FINALLY RENDERED BANKRUPT, BY A RECKLESS COURSE OF BUSINESS.

Insurance Companies of this stamp and character are continually springing up in various parts of the country. It is not our purpose (b) accepting premiums inadequate to cover the average annual loss) to compete with such irresponsible offices, whose object would seem to be to collect a considerable sum from the operations of one or two seasons, divide the proceeds, and pay their losses, or not, as expediency may dictate. On the contrary, the PROTECTION INSURANCE COMPANY, OF HARTFORD, will maintain its business upon a permanent and responsible basis, and thereby secure a continuance of the patronage which has hitherto been so liberally extended.

General Agent, Protection Insurance Co.

The undersigned, local Agent, is supplied with blank policies which will be issued, covering approved risks. For dwellings in the country, he will take good risks at 50 cents per brick; and 75 on frame dwellings, situated three hundred feet from any fire, (except in same dwellings.) LEWIS NEWSOM,

Agent Protection Insurance Co., for Gallia county, Ohio, and Mason county, Va.

The Protection Fire and Marine Insurance Company is one of the oldest, wealthiest, safest and promptest companies in the Union. To those of our friends who wish to insure, we cannot do a greater favor than to recommend them to the agent of this Company.

We would take this occasion to say a few words to our readers
